The Personal Liberty Billi. The bill, which passed both Houses of the Legislature a day or two since, and was approved by the Governor on the 19th instant, is now the law of the State. We publish it, in full, this morning, from the copy in last evening's Free Democrat. It holds up the shield of State Soverelignty to protect citizens of Wisconsin from the aggressions of the Slave Power.

The Chief Justiceskip. The Madison Argus of the 18th Inst., refers to the approaching election for Chief Justice in an article of some length, and commendable alike in language and spirit. Of the present incumbent, the Argus thus speaks:

In regard to Judge Whiton the truth compels us to say with one of his sulogists: that he has "borne his high faculties meekly," and now, even in laboring for his defeat, candor and inclination both lead us to express our respect for the profoundity of his judicial learning, his uprightness and

The Argus nevertheless is opposed to Judge WHITOR'S re-election and intimates that Judge SMITH, one of the Associate Justices of the Supreme Court, may be the nominee of the Democracy. It says:

Many years of personal friendship have made Many years of personal mendanp have made us respect the man—and lead us to hope that for many years to come he will be an honor to the Wisconsin Bench. His nomination for Chief Justice is not unlikely—though there is little or no probability that his relations to other mem-Should the court would permit him to accept it. he would receive the cordial support of the Democracy of the State.

of the Democracy of the State.

Should this not take place, it would be folly to deny that the task of electing a Chief Justice in opposition to Judge Whiton is one of difficulty, and the prospect of success is doubtful. We fully concur with the Argus in the opin

ion that Judge Smirn would not consent to be a candidate, as against Judge WHITON, and that the "task of electing a Chief Justice in opposition to Judge W." is no means an easy one, nor likely to be crowned with success. It would argue great instability, on the part of the people of Wisconsin, if they should now dismiss from the Bench of the Supreme Court, so able a Jurist, so pure a man and so upright a Judge, as EDWARD V. WHIros. Nor, indeed do we anticipate any such calamity. It is much more probable that there will be no serious opposition to Judge WHITON and that the mass of the people, without distinction of party, will gladly give him their suffrage and re-elect him to the post which he has dignined and adorned.

New York Town Elections. The News of yesterday attempted a feeble chirp over the result of the New York Town elections. The following table of these results thus far, from the Albany Evening Journal of the 17th instate, will show how much ground the News has for its faint note of triumph: SI PERVISORS ELECTED.

JANESVILLE FREE PRESS .-- We are glad to learn, from the last number of the Free Press, that our friend Sackerr, the publisher and proprietor, is at his post again, having returned from the East with renewed health and spirits. The Free Press is about to put on a new dress and is doing a prosperous business. Merchants and others, who desire to advertise in Rock Co., will find the Free Press an excellent medium.

THE DUTY ON LEAD .- The Hon. E. B. Wash burne writes to the Galena Advertiser that t majority of the Committee of Ways and Means have finally agreed not to disturb the duty on Lead, in the bill now pending before the House. They at first thought of putting Pig Lead in the tree list, and afterwards in the ten per cent. schedule, but finally concluded not to disturb so important an interest.

Murder at St. Louis. At St. Louis, on Monday, Henry Benning was shot and instantly killed by a man named Walser S. Strother. The parties had been engaged together for some time in the purchase of hides The terrible crime was the result of Benning at tempting to wake up Strother by shaking him rather roughly. They had been regarded as fast friends, and no cause of ill will was known to exist. The murderer is a young man of twenty

FROM MADISON. Editorial Correspondence of the Southeel.

MADISON, Feb. 19, '57. At I intimated in my last was probable, the the table. A call of the House ensued. After conate this morning refused by a vote of 3 to 21 to agree to the amendment to the Personal Liberty Bill, made by the Assembly. That amendment reads as follows:
"All costs and reasonable and proper charges

any suit, prosecuted under the said fugraive slave act, or in avoiding any judgement obtained sgainet him under said act, shall be paid by the

The general sentiment of the Republicans who oppose the amendment is that they are willing and anxious to provide all needful legislation so that the citizen may obtain his rights and use his remedies, but are not willing to throw the door open to the rendition of bills against the state for costs and expenses.

The Senate passed a long list of bills this morning: Among them, I notice one providing for a tax at the discretion of the Superviso's of each county, not more than \$400, for the benefit of the County Agricultural Society. Another bill provided for a vote in Iowa Co. on the subject of removing the county seat from Mineral Point to Dodgeville. Another one for the di vision of Chippewa county, and the organization of three new counties to be called Fremont,

Flambean and Price. The bill authorizing the extension of the Madison and Watertown R. R. Co to the Mississippi also passed the Senate; and the bill amending the charter of the Air Line (Milwaukee and Fond du Lac) R. R. passed. This last was an Assembly bill, the other has yet to pass the As-

embly. No new bills in either house, the time having

expired yesterday.

Iu Assembly, a communication was read from Mr. McGarry, State Prison. Commissioner, making the modest request of an appropriation of about \$1800,00 for his damages incurred by the prosecution of the charges against him before the Governor.

A BEAUTIFUL BATCH OF "OLD POLDIERS." The Committee on claims reported adversely on a batch of old claims, most of which are annual visitors to the capitol, among the collection were the claims of G. H. Slanghter and C. K. Lord, formerly U. S. Land Officers. The report on the latter is to the effect that, letly, there is no evidence that the services were performed; 2dly, the charge is enormous if they serve performed; and Sdly, the charge is not a days and then weeks, until it settled in forty proper one against the State, at any rate. Be- days,—a number very anciently appropriated to sides these, there was one for a Mr. Hills for repentance and humiliation. This was the numsurveying under E. Lees, a land looker of her of days during which God covered the earth the late administration, the Committee reporting with the deluge; the number of years in which that Mr. Lees has been paid enough already; one the children of Israel wandered in the wilderness; of W. E. Cramer for papers furnished in a year the number of days Moses fasted in the mount, when the Legislature refused to take papers at and Elias in the wilderness; the Nicovites had the expense of the State; one from Wm. Welch. this humber of days allowed for their repentance; for redemption of old scrip; and the old bill of and our Lord, when he was pleased to fast in the R L. Ream for making a map, or maps.

THE JAMSSEN BILL AGAIN. This bill was the special order of the day, and ccupied a long time, the discussion being in

teresting. · Mr. Tenney offered a substitute for the whole oill, providing for the appointment of three comissioners, who are, at a cost of not more than \$200,00 each, for the whole service, to examine as to the state of the suits,-to enquire and reort as to whether Mr. Janssen applied the money o his own use -and to give their opinion as to whether it is possible to recover anything by suit -the Governor to order the suits discontinued if it shall be bost for the interest of the state to

Mr. Noggle favored this substitute, liking i rather better than the original bill. He thought

ed to provide some means of detecting the really guilty ones. He believed in "handing down the villains to public reprobation."

THE SPRAKER TAKES THE FLOOR. Mr. Speener calling Mr. Sloan to the chair,

said that he thought justice should hast be ascerained and meted out, and mercy given afterwards. It was due to all parties that a proper legal investigation should be made. The Treaurer himself had been to blame, since it was his duty to examine his books and report quarterly especially while the public prints were pointing to his assis sants and associates as dishonest. The condition of the bonds of the sureties was that he, and not the Governor and Scoretary, should do his duty; and as to the time of the defalcation, it occurred go on, so that the Treasurer might be excuerated-so that the guilty might, possibly, be detected, and so that the State might know the defeets of the law, and provide against the future. The Republicans had been charged with making the accusations against the late Administration for political purposes, and it would be charged, if this bill passes, that they knew it was so, and

were ready to cover up the crime, if any. Mr. Lovell explained that the bill expressly confined the exemption from liability to the Tressurer, and provided for prosecuting the suit, if future development= should make it necessa-

Mr. Horn was willing to adopt the substitute He said that a judicial investigation could throw no light as to other persons. Mr. Janssen confessed the deficit, and would have to go to the

at the proper time.

Mr. Reymert sent up a communication from A T. Gray, late Sec'y of State, which was read by the Clerk. It stated that the quarterly examinations were made by him during the first two years, except for one quarter, but in the last term no examinations were made by the Treasurer himself for 15 months; and he (the Secretary) was obliged to rely upon the brief statements shown to him by the Treasurer, which showed

the balance to be all right. Mr. Hutchinson read the impudent reply, re turned over the signatures of Messrs. Janssen and Seaver, two years ago to the Assembly, telling them in effect that their queries were only the embodiment of the scandal of partizans &c., and that the laws were open to them to ascertain guilt. Mr. H. thought the only proper course now was to follow up the suggestion,

He spoke earnestly as to the duty of the Legislature to hold public officers to a strict account

proposed to stop the criminal suit, and to repeal the civil suit, until some fature Legislature should ordered it continued, Mr. Janussen to pay costs thus far. He supported this at considerable length.

Mr. Mills' amendment was carried, ayes 41,

THE PERSONAL LIBERTY BILL. I was mistaken in saying yesterday that Mr. I was mistaken in saying yesterday that Mr.

Barron was the only Republican who preserved his consistency to the last and voted against this him; but she no sooner perceived the presence bill, on account of the amendment. Mr. Foster, of Dodge, also voted No.

As mentioned above, the Senate, by an almost unanimous vote, refused to concur in the amendment. The bill was taken up in Assembly in the afternoon, and Mr. Lovell moved to recede from the amendment. There was some disinclination on the part of the democrats to taking the vote at once, and Mr. Moses M. Strong talked pretty sharply about calls of the House, appeals, staying till midnight, &c., but after further consideration, said that he had spoken hastily, and didn't mean what he said; and the vote being taken, the Assembly receded, 47 to 27, the ayes all Republicans, the Noes all democrats but Messra. Aspinwall, Burgess, Catton, Evans, and Stevens.

The bill will doubtless be published to-morrow and become a law.

Religious Intelligence. As the Season of Lent begins on Wednesday next, a few words explanatory of this custom may not be without interest to some of our read-

"From the earliest ages it was a practice among Christians to set apart some time for selfdenial, fasting and prayer, preparatory to the Feetival of Easter. It is said, this preparative fasting was, originally, only for forty hours; that s from 12 o'clock on Friday, the time of our Saviour's falling under the power of death, till Sunday morning, the time of his rising from the dead. This was afterwards drawn out into more wilderness, observed the same length of time .-The term Lent, does not import anything of fast ng or religious observance; it is a Saxon word, signifying the Spring."

RE-TRANSLATION OF THE BIBLE .- LOID Pau mure, in presiding at a Bible Society Meeting in Edinburg on Friday hast, made the following remarks on the subject of a new version of the English Bible:

"We have heard a talk in this country, and we have absolutely not into practice in the

have seen absolutely put into practice in the [inited States of America, a scheme for what is alled a new version of the Bible. Now, feeling very strongly on that subject, I take this oppor-tunity of publicly stating my opinion that any such scheme is fraught with the utmost danger to the Protestant liberties of this country—nay, it is fraught with danger to the Protestant Icligion itself. If I look to America, I am happy find that the scheme there has been, I might almost say, utterly abortive. It is quite true, and every man must admit, that there are per rather better than the original bill. He thought that the defence of the sureties arising from there having been no examination by the Governor and Secretary of State, was a good defence. Mr. Janssen, was, he maintained, the victim to the most infamous set of scoundrels that ever got into office," who had used him as a tool, and left him to bear the blame.

Mr. Hutchinson offered an amendment intended to provide some means of detecting the really to provide some means of detecting the really to the sure of the sure of the first the danger of letting in those who would make alterations, partly from the criticism of erudition, partly for the purpose of getting in dogmas of their own, that I think it would be the most dangerous and most disastrous thing that could occur to this country, if we were the provide some means of detecting the really been bousehold words in many a pious family for upwards of 200 years, and I hope will be the household words of all the families of the orld before 200 years more clapse. If we were world before 500 years more capse. If we were to allow these holy words to be tampered with, we should be in the greatest danger of shaking our Protestant institutions. I would submit to those little imperfections which may exist in our those little imperiections which may star in the present version, leaving it as a part of the culling of our Minlaters to study the Holy Scriptures in the original torgues, lo lit them to explain to those who sit under them wherein those little differences exist.—Ohurch Journal.

THE FIRST CHRISTIAN CHURCH IN THE UNITED STATES.—Captain John Smith gives the follow-ng interesting skotch of the earliest state of the niant Church in the original settlement of Vir-

Deference in the chief characteristic of the year, just closed, has been the amount of moral delinquoncy, in certain classes of the British public, in fraud, peculation and robbery. Persons of high standing for probity, upon whose character suspicion had never breathed, are involved in these crimes. It sums up the cause of this deterioration in "a haste to be rich," accompanied by expensive habits and the love of display. The same causes have operated with similar mischief penitentiary.

Mr. A. Taylor thought that consequence would not necessarily follow, unless the jury found that he had wilfully kept or used the funds.

Mr. Mills spoke at some length in favor of telessing Mr. Janssen. He read is substitute for a part of the original bill which he would offer at the ryroper time. desire to imitate-their ostentations, hesitate no to resort to the most nefarious means to acquire it. WAKING UP IN THE EAST .-- A traveller return-WAKING UP IN THE EAST.—A traveller returning to Alexandria. Egypt, after an absence of a few years, will find an extraordinary improvement in the appearance of the town, and the condition of the people. Three handsome churches for the Christian worship have been erected—an English Protestant, a Roman Catholle, and a Greek. Bells are heard to toll, calling the Christians to divine service. A railroad has been completed to Cairo, and new streets of handsome houses are springing up. The natives been completed to date, and produce the hundsome houses are springing up. The natives are better fed, and the condition of the laboring classes is so much improved that the European residents find it difficult to produce among the Arabs a domestic servant for hire.

The people expected it of them.

Mr. Horn said that reply, signed Janssen, had been written by somebody else. It was well known that he had been always under the influence of an unscrupulous set of men, who used him as a tool, and made him sign whatever they wished.

Mr. Robbins recalled the results of the late Investigation, which, in pamphlet, he had just been sending home to his constituents. He could not face them, after having voted for releasing one of the parties implicated, without further evidence.

Mr. Mills amendment was new presented. It

At the suggestion of the pastor, the glst Psalm was recited, the boys repeating promptly and most emphatically the first verse, the girls the second, and so on. The impression made by them, thus alternating the words of that beautiful Psalm, was very pleasing. Addresses were made by several gentlement, and the singing, by the whole mass of scholars, made the spacious church ring again."
